INTRODUCTION.

At a town meeting held on the twenty-third of March, 1891, it was "Voted to appropriate the sum of $1,000 for the publication of the earlier town records, and that the Historical Society of Watertown be authorized to take charge of said publication, and said sum shall be assessed upon the polls and estates of the coming year." Acting under the authority thus given, a committee appointed by the Society has prepared this book. In so doing, it has been the aim of the Committee to produce a copy, *verbatim et literatim*, of the original records. Nothing has been taken for granted. All doubtful passages have been placed in brackets, and editorial comments or additions have been enclosed in parentheses, with references to authorities where necessary. The page-numbers of the original records, displayed in bold-faced type, are given for purposes of reference.

In connection with the work, Mrs. Ruth A. Bradford, a member of the Historical Society, has searched the files of original court records now in the custody of the Clerk of Courts for Middlesex County, for Watertown items prior to the year 1700; and a similar search of the Suffolk County files and the State Archives, has been made by Dr. Davenport. It may not be out of place to allude, here, to one or two matters of history pertaining to the town, gleaned in part from these sources. Watertown was the fourth town constituted in the Massachusetts Bay Colony (State Archives, vol. 113, p. 295). Only one town in the State of Massachusetts, however, has at this day, earlier original records of town proceedings than Watertown. The original records of Plymouth begin March 31, 1637; those of Salem, Dec. 26, 1636; Charlestown, Oct. 1, 1634; Dorchester, Jan. 16, 1632. Of the later towns, the records of Boston begin Sept. 1, 1634, and those of Roxbury, April 29, 1648. Some of these towns, however, have records of land grants or of settlers a month or two earlier than those of their general town proceedings. The only records we have of the extinguishing of the claims of the

native Indians to the territory of the town, are found in the Records of the General Court. By the Court of March 13, 1638–'9, "M^r. Gibsons was desired to agree w^th the Indians for the lands w^thin the bounds of Watertown, Cambridge & Boston," and by the Court of May 13, 1640, "It was ordered that the 23£ 8^s 6^d layd out by Capt. Gibons shall bee p^d him, vid; 13£ 8^s 6^d by Watertowne, & 10£ by Cambridge, & also Cambridge is to give Squa Sachem a coate every winter while shee liveth." The numerous extracts from the State Archives relating to the establishment of towns and kindred subjects which are to appear in the volume of the Acts and Resolves of the Province of Massachusetts Bay, will contain considerable matter concerning the long-continued controversy over the location of a proposed new meeting-house in Watertown: a dispute which brought about the formation of the East and West precincts, and finally resulted, on Jan. 4, 1738, in setting off the West precinct as a town, under the name of Waltham. It should be mentioned that the earlier records of Watertown Farms, incorporated as Weston, Jan. 1, 1712, have just been published by that town, edited by Miss Mary F. Peirce, a member of the Historical Society of Watertown.

The General Proceedings of the Town of Watertown, from the beginning until the present time, are contained in fourteen volumes. The Births, Marriages and Deaths, are recorded in seven volumes, the first of which has a short supplement. Certified copies have been made of the first six volumes of the Proceedings, and of the first three volumes of Births, Marriages and Deaths and the supplement. All of these originals are in a fair state of preservation, except the first volume of the Proceedings. The accounts of the Treasurer begin, as a separate record, early in 1696, and occupy twelve volumes; in one of which are also recorded the church affairs of the East Precinct from 1685 to 1792. The Proprietors' Book of Records ends in 1742. It is printed, complete, in this volume. Besides the records already mentioned, there are a number of unbound leaves of records running from Nov. 2, 1702 to Jan. 13, 1727, which have been stitched together and preserved in the back part of the Third Book of Town Proceedings; one volume of records of the Fish Wardens between 1799 and 1826; and forty-five books of Assessors' Records, beginning in 1790, previous to which time the lists

were preserved in the files of original papers. These files are quite full from 1737, the year in which Waltham was set off; and they are believed to be unusually complete for a country town. Previous to 1737, they are not so complete; and they contain very few papers prior to the year 1700. Mr. and Mrs. Charles A. Stearns, members of the Historical Society, are now arranging these files in substantially bound volumes.

The oldest volume of the records contains the First and Second Books of Proceedings, and the Lands, Grants and Possessions. The book is bound in leather, and bears upon its side the title, "First Watertown Records." Upon a fly leaf, some one has written that it was "New bound in 1829." There are no title pages in the volume. For the first twenty years, only the right hand pages were used in entering the records. The first of these pages is numbered 2, although the numbering does not appear to be contemporaneous with the records. What was written on the lost page 1, will probably be always a matter of conjecture, though some find reason to believe that it was only a title page. The account of the proceedings from Nov. 28, 1643 to Nov. 29, 1647, is also missing. This is probably due to carelessness in the preservation of the book, though there are some indications that the records for this period may never have been very complete.

The practice of designating the month by number instead of by name, which is of frequent occurrence in these records, for example, "21st (3rd) 1650," renders necessary the reminder that until September, 1752, the Julian, or "Old Style" calendar was the legal standard. The year began, therefore, on March 25th, instead of on January 1st, as it does under the Gregorian, or "New Style" method; and March was known as the first month, April the second month, and so on. A few instances are found in which dates falling between January 1st and March 25th are given in both Old and New Style, as for example, on page 122 of the Proceedings "(9th) March, 74/75."

As no little interest is attached to the personality of the forefathers whose doings these records bring within the knowledge of a later generation, the Committee has incorporated in this book a number of photo-electric reproductions of parts of the original records, which serve to illustrate the styles of entry

practised by the ten successive town clerks, John Eddie, Simon Eire, John Sherman, Ephraim Child, Hugh Mason, John Whitney, Thomas Hastings, Simon Stone, Jonathan Browne and William Bond. Three maps of portions of the town have also been added, of the dates of 1687, 1720 and 1795. The originals of these maps are in the State Archives, and are the oldest maps of Watertown now known. The destruction by fire Nov. 10, 1825, of the map made by Abram Brown in 1640 (Bond's Hist. of Watertown, Sec. 84), of which no copy is known to exist, was a loss that will ever be deeply regretted by those who are interested in ancient Watertown.

The preparation of this volume has occupied the spare time of the Committee for three years. The indexes were undertaken by Miss Crafts, and they were well advanced at the time of her sad death. The rest of the work, including the copying of the entire records herein printed, has been performed, mainly, by Messrs. Fitz, Davenport and Mason. It has been a labor of love, arduous indeed, yet not without its rewards. In bringing it to a close, the hope is expressed that its shortcomings, be they what they may, will not materially lessen the worth of such a possession as these ancient records of Watertown in printed form.

The book was probably begun in 1644 when those whose names are, in accord with the order of Court of 9 (7) 1639, signed at the beginning of the Second Inventory of Grants and Possessions were the selectmen. The selectmen of Dec. 16, 1657 were ordered to make an inventory of the towns land. The pages of records previous to 8 (9) 1647 are now missing. Up to 4 (10) 1648 this book is in the handwriting of John Sherman who was also chosen clarke of ye Writts 18 (8) 1645. — Eds.]

Ther comeing a complainte to vs the ſelectmen concerneing the pouerty of Edward Sanderſons famelley: yt they had not wherwith to mainetaine themſelues and childeren either with ſuply of prouiſion or emplyment to earne any and conſidering yt it would be the charge of the towne to prouide for the wholl fameley wch will be hard to doe this yeer: and not knoweing how to ſuply them with prouiſion: we conſidereing if we ſhoulde ſuply them and could doe it: yet it would not tend to the good of the childeren for their good eaducation & bringeing vp ſoe as they may be uſefull in the comon weall or them ſelues to liue comfortablly and ufe fuly in time to come We haue therfore a greed to put out two of his childeren in to ſume honiſt famelleys wher they may be eaducated and brought vp in the knowlidge of God and and ſum honiſt calling or labor: And therfor we doe order that Thomas Fleg & John Bigulah ſhall haue power to binde them prentiſes wth ſume honiſt people with the conſent of their perants if it may be hade and if the perants ſhall oppoſe them to uſe the helpe of the Magiſtrate: in the name and with the conſent of the ſelect men Thomas Haſtings.

thinge vpon that a count: Though we councelled them ſoe to doe as thinkeing it to be the cheapiſt way and doe ſoe thinke and if they ſhall yet agre to doe it we ſhall be well ſatiſfied: but if they ſhall not agre to doe it in y^{t} way that we may be true to our truſt commited to us by the contry and town: that the contry be not wronged and the oquepiers be not damaged It is ordered by the ſelectmen that they ſhall meeſer the feild that they may know what Land euery oquepier haue and to lay vpon euery man his iuſt preportion of fence acordeing to their ackers in the feild: and to ſet vp their fence by the firſt of aprell next vnder a penalty of ten ſhillings a man for euery one y^{t} ſhall neglect the ſeting vp of his fence and ſhall pay a fine acording to the order of the town

Enſign grant demandeing a farme in the behalfe of Enſign Thomas Cakebread we returned him this anſwer that we hade with ſeriuſnes conſidered of his demande and hade alſo ſought the towne booke and by all that we could finde in the towne booke we doe not find any ground from the towne booke to anſwer his demand and therfor left him to his liberty

Whereas our officers that are to vew fencis haue ben put to much truble needleſly as is complained of: we therefore Order that if any mane call out our officers to vew fences the partis that call them out ſhall a low them twelue pence a peeſe and if the fence they vew be vnſufficent the owner of the vnſufficient fence ſhall pay it and ſhall pay all damag don by it and ſhall ſatifie what fine the town haue laid vpon them by any former order

*[Note. The Town Record of 4 (11) 1641 records that it is "ordered that Simon Eire shall write a Transcript of the Lands in a Book and give it in to the Court." The General Court Records of 18 (3) 1642, that "Watertowne delivering in a transcript of their lands, nott being perfect was lent them backe again." The Court of Assistants of 7 (4) 1642, extended the time of delivery till the 4th Moth 1643, while the Court of the 25 (11) 1643, "respited the delivery till the Quarter Court in the 4th M. next." Another copy was probably referred to in the Town Records of 16th Dec. 1657. The above signatures are autographs, and in accord with the order of the Court of 9 (7) 1639, are probably those of the selectmen of that year. The order of 16 Dec. 1657 was to be executed by the selectmen.

The second as well as the third inventory was transcribed into the Proprietors' Book as attested February 27th 1714-5 by Munnings Sawin, Town Clerk. — Eds.]

[Third Inventory.

Grants and Poſſeſſions of the Lands

IN

Watertown.]*

---

* (This inventory is, with one exception, of possessions only. From some of its entries it must have been made before the end of 1646, and it is, like the other inventories of grants and possessions, in the reverse portion of the oldest volume of town records. As its last page is upon the reverse of the last page of the Second Book of Records of the Town Proceedings it must have formed an original part of that book. Whether however the record of grants, and the first and second inventories of grants and possessions, which inventories, from the apparent fold of the paper, were parts of one book, were also parts of this book before the rebinding of 1829 does not now appear. The first inventory includes both grants and possessions, while the second is of grants only as the third is of possessions. The second and third inventories were transcribed into the Proprietor's Book and attested February 27th, 1714-15, by Munings Sawin, Town Clerk. — Eds.)
